1.	Specifications vary depending on model.	8. 1 GB is 1 billion bytes, 1 TB is 1000 GB. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Acer Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.
2.	64-bit software is required to enjoy the advantages of 64-bit processing.	9. Minor variations in system dimensions are possible due to the manufacturing process.
3.	Shared system memory may be allocated to support graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by any memory used by the graphics solution and resources required by the operating environment.	10. Weight may vary depending on product configuration, vendor components, manufacturing variability, and selected options.
4.	Memory speed may vary, depending on the CPU, chipset or memory fitted.	11. Listed battery life is based on MobileMark 2014® productivity mode testing with wireless on. Details of MobileMark 2014® testing are available at www.bapco.com . Battery life rating is for comparison purposes only. Actual battery life varies by model, configuration, application, power management settings, operating conditions, and features used. A battery's maximum capacity decreases with time and use.
5.	A 64-bit operating system is required to enjoy the ultimate performance of 4 GB or higher memory.	12. Bundled software may vary depending on hardware configuration, OS and regional availability.
6.	All brands and product names mentioned herein include trademarks of their respective companies and are used solely to describe or identify the products.	13. EPEAT® registration varies by country. See http://www.epeat.net/ for registration status for each country.
7.	Not all features indicated are supported on all SKUs
