

COMMUTE 3

VOICE ANSWER HANDSFREE CAR KIT

USE YOUR VOICE WITH THE BLUEANT COMMUTE 3 TO ANSWER CALLS AND STAY HANDSFREE

Use Your Voice To Receive Calls

When the phone rings you won't need to take your eyes off the road to know who is calling, because the COMMUTE 3 will read out the caller's name or number, and ask you if you want to take the call. All you have to do is say "OK" to answer.

The BlueAnt COMMUTE 3 makes it simpler and safer to communicate while driving by keeping your eyes on the road and your hands on the wheel.

A2DP Streaming

The COMMUTE 3 features integrated A2DP streaming audio functionality, so you can listen to music or podcasts and hear turn-by-turn direction information from a GPS application* on your phone. * If supported by your phone
