# Epson SureColor T3160M - 24"

**Large Format Printers** 

SureColor Technical: CAD & POS printing made Fast and Flexible

#### **Printer Friendly Specs**

#### **Overview**

The Epson SureColor Technical series is a versatile and compact range of printers. They are designed for users who need to produce large-format colour and black-and-white images, economically and at high speed. They are compatible with a wide range of media from basic bond paper, to photographic media. They support high resolution print with dense and consistent colour. They are ideal for maps, plans, drawings, schematics, geological survey diagrams, sales presentations, POS posters and displays.

The SC-T3160M is Epson's first wide format compact printer to include an integrated scanner. We have incorporated technology developed and perfected in our professional document imaging division which provides a compact and integrated solution that is driven from a simple and easy to operate touch control screen. Developed for engineers, architects and the construction industry, it also provides the perfect solution for corporate, government, retail and education users. The scanner supports scan and copy functionality with network and direct USB file storage in a variety of formats.

The SC-T3160M features Epson's latest PrecisionCore™ print head and aqueous UltraChrome<sup>®</sup> XD2 pigment ink. It will print an A1 image in as little as 34s with output that dries almost instantly to be water and rub resistant. Ink ships in a range of cartridge sizes to suit different production and cost-per-print requirements. Designed for small and medium sized businesses that want to produce wide format prints, the printer comes standard as a desktop version and a stand can be purchased separately, it has a very small footprint, and can be installed against a wall or in a corner. It also ships with software that enables easy printing from office and CAD/GIS applications.

High Productivity – prints an A1 image in as little as 34s, scans one in as little as 3.81cm/s or copy one in 60s<sup>1</sup>. Also includes an integrated auto-cutter

High Precision – 2400x1200dpi resolution Epson PrecisionCore<sup>™</sup> print head with Variable Sized Dot Technology (VSDT) for super fine lines, superior half tones, solid and consistent colour

High Durability – all-pigment Epson UltraChrome™ XD2 ink dries almost instantly to be moisture & scratch resistant

High Reliability – solid construction backed with a comprehensive 'heads-n-all' warranty with service cover extendable up to 3 years<sup>2</sup>

High Flexibility – supports a variety of roll paper up to 24" (610mm) wide and sheet paper up to A1

High Convenience – large 4.3" touchscreen panel with easy to use interface, top loaded ink and media, spindle roll loading, integrated Auto Sheet Feeder, auto sheet/roll switching, single page prints are held by the printer for easy removal while the floor standing model ships with a basket

Low Running Cost – ultra-low power consumption, uses individual colour cartridges in a choice of sizes up to 80ml

Easy Integration – compact design, high speed Gigabit Ethernet, convenient WiFi/ WiFi Direct & AirPrint support, HP-GL/2 & RTL emulation<sup>3</sup>

Greater Connectivity – Connect a USB thumb drive to the printer and print from/copy to PDF<sup>4</sup>, JPEG or TIFF images directly from/to the USB

#### **Specification**

SIZE		
Max Print Width	24 inch wide (610mm)	
PRINT TECHNOLOGY		
Print Head	PrecisionCore TFP with VSDT and Auto Head Alignment	
Print Modes	Uni & Bi-directional	
Nozzle Configuration	800 per colour	
Maximum Resolution	2400dpi x 1200dpi	
Minimum Ink Droplet Size	4.0pl	
SCAN TECHNOLOGY		
Technology	Contact Image Sensor (CIS)	
Light Source	Single	
Feed System	Sheet pass-through	
Maximum Resolution	600dpi	
INK SYSTEM		
Family	Epson Ultrachrome® XD2	
Туре	All-Pigment Aqueous	
Colours	C+M+Y+K	<ul><li>9</li><li>9</li><li>9</li></ul>
Cartridges	CMY 26/50ml K 50/80ml	
PERFORMANCE (per Sheet)		
CAD A1	34sec	

Figures represent print times only for Epson test sample images as shown produced on plain paper in speed mode. Additional processin time may be required with individual results likely to vary depending on print mode, software, operating environment, media, data file size/type.

## SCAN PERFORMANCE

Max Scan Speed	3.81 cm/s or 1.5 ips (Colour) 11.43 cm/s or 4.5 ips (Mono)
Max Copy Speed	77s per A1 sheet Colour 60s per A1 sheet Mono

Scan speeds represent feed times only for a standard CAD image on plain paper @200dpi in TIFF format and are provided for comparison purposes only. Additional processing will be required with the total time taken for completion dependent on the media & image type, media orientation, image processing, image scaling and other factors. Copy times represent the total scan, processing and print time for the image shown scanned long edge and printed on plain paper. Individual results will vary depending on media & image type, media orientation, image processing, image scaling and other factors.

## MEDIA SUPPORT

Roll Format	Single roll top loaded spindle, 2" core, $0.05$ - $0.21$ mm thick, $329$ - $610$ mm wide, $119$ mm max diameter, $3$ Kg max weight
Sheet Format	Top loaded A4-A1 single sheets, integrated A4/A3 Automatic Sheet Feeder (50 sheet max), $0.12$ - $0.27$ mm thick
Auto Cutter	Inbuilt rotary type
Manual Double Sided Printing	Please refer to user guide, and contact Epson or your authorised dealer before selecting any media for this purpose in order to check suitability.
Output	Single sheet hold feature Supplied with an A4/A3 output tray

 $<sup>^{1}</sup>$  Scan and Copy speeds are the actual time it takes to perform each task. Speeds will differ between mono and colour.

<sup>&</sup>lt;sup>2</sup> When printers are installed, maintained and operated appropriately using correct and genuine Epson UltraChrome XD ink they are covered by a comprehensive on-site warranty subject to conditions outlined in the **Epson Warranty Statement**. Service Cover can be extended through the purchase of optional CoverPlus up to a maximum total of 3 years subject to conditions documented in the relevant service pack.

<sup>&</sup>lt;sup>3</sup> The HP-GL/2 & HP RTL implementation employed by different applications can vary. If this facility is important please contact Epson or one of our dealer partners to confirm compatibility and operational functionality prior to purchase.

\*\* Epson CoverPlus Service Packs enable basic warranty cover to be extended. One or more Service Packs can be ordered in conjunction with the various printer configurations &/or options to enable cover for 1, 2, 3 year periods (total cover cannot exceed 3 years). Service and support is only provided for product supplied through Epson Australia or Epson New Zealand. This facility is provided in conjunction with the Authorised Large Format Reseller through which the product is ordered. Limitations apply to the provision of warranty upgrades and on-site service. Regional locations and certain installation situations may attract additional charges. Service may be restricted or limited when equipment is used outside of specification &/or with non-Epson consumables. For full details on coverage, terms and limitations please review the <u>warranty terms</u> listed on this web-site and contact Epson or one of our Authorised Large Format Resellers if you have questions or concerns.

## Usage Conditions

Epson products are designed to give highly reliable use and long life when used according to specifications. With any product or device used in situations where human life may be involved or at risk, Epson advises that you should take all necessary steps to ensure the suitability of your Epson product for inclusion in your system, and recommends that you include fail-safe procedures and redundancy support or backup equipment in your system, to maintain the maximum safety margin and optimum system reliability. Examples include but are not limited to – do not interfere with any electrical components within the device, do not use items supplied with the product for

purposes other than as intended by Epson (ie mains cords, inks, CDs, plastic wrapping), do not make modifications to the product, take care with the use of 3rd party consumables, consult Epson if you have any questions or concerns.
