## Epson WorkForce DS-530II

The document scanner that's the intelligent choice for document management.

Epson Australia is pleased to introduce its newest A4 sheet-fed scanner for business users – the **Epson WorkForce DS-530II**, designed from the ground up to deliver performance, versatility, quality and speed.

The DS-530II document scanner takes efficiency to a new level for business environments where fast and easy document management is required.

This new product has the following improvements compared to its predecessor **WorkForce DS-530**.

- **Paper Protection Enhancement:** New Inclination and load detection technology reduces the risk of any damage to documents and interruption.
- **New Dirt Detection Technology:** Image quality is improved by detection of matter which can cause lines in scanned documents
- **Reduced Scanning Noise:** The already low scanning noise is now decreased by up to 3% for quiet operation within the office

Scan documents, business cards, and identification cards directly to popular cloud services with the included software. The scanner is very easy to use and includes intuitive one-touch scanning.

## TARGET MARKET AND POSITIONING:

The **Epson WorkForce DS-530II** is ideal for business and home office environments which need to quickly capture database information and whole documents for current use and archiving. Additionally, the **WorkForce DS-530II** is designed for a variety of demanding organisations and sectors, such as government, bank, healthcare and small business.

## KEY FEATURES & BENEFITS

- ✓ **Exceptional Speed** – 35ppm / 70 ipm<sup>1</sup> scan speeds for fast and productive scanning means that documents can be stored and or shared efficiently.
- ✓ **Optional Network Adaptor** – One single scanner can be connected to a network so the unit can be shared by multiple users and easy integration into an organisation.
- ✓ **Scan directly to popular cloud services<sup>2</sup>** – scan to Sharepoint®, Dropbox™, Evernote®, Google Drive®. PC and Mac® compatible.
- ✓ **Scan to searchable PDF's** – scan and edit documents; save scanned documents as PDF files. The included OCR software included means that documents can be scanned and saved as text-searchable PDF files, dramatically improving the ability to search and successfully locate information contained in scanned and stored documents.
- ✓ **Advanced colour and image adjustments** – featuring Colour Enhance, Colour Dropout, automatic paper size detection for innovative and productive document management. A3 sized documents which are folded in half can be scanned and stitched together so that it is one complete image or file.
- ✓ **Versatile paper handling** – scan stacks business cards and extra-long paper, as well as connect to a flatbed scanner for books, passports, stamps and more.
- ✓ **Connect to document management software** – TWAIN and ISIS drivers for seamless integration between the scanner and custom built business applications.
- ✓ **Powerful Duty Cycle** – with a scanning capacity of up to 4,000 sheets per day, the scanner is perfect for business environments such as financial institutions, government and enterprise.

Network Option

## A4 SHEET FEED SCANNER

The **Epson WorkForce DS-530II** is the newest addition into Epson's scanner portfolio. This high speed sheet-fed scanner is bundled with features that will increase efficiency and productivity in the workplace.

Key among many features of the **Epson WorkForce DS-530II** that make it best-fit for business document scanning solutions is the ability to scan both sides of a double-sided document simultaneously and at great speed. The scanner can process documents at **35ppm/70ipm with a setting of 300dpi**. Other comparable models will only scan at 10ppm with this resolution setting.

The **Epson WorkForce DS-530II** has the ability to connect to a network by connecting the **optional network adaptor** meaning that the unit can seamlessly integrate into a business operation, and files can be shared amongst multiple user's from one single device.

Another fantastic feature of the scanner is the large amount of media flexibility. The scanner will **support A6 to A3 size documents**, including business cards. Extra-long paper can be easily scanned to one file.

Extra-long documents

Featuring **Epson ReadyScan LED Technology**, the scanner is built with the environment in mind. It is a mercury free device with low heat dissipation, low power consumption and virtually no warm-up time, meaning that within one second of switching on, it's ready to use making it a time efficient scanning solution for the workplace.

**Ultrasonic double feed detection technology** provides assurances that every page is scanned. The technology works by sensing if more than a single page has been accidentally fed in and the scanner will automatically stop the paper feeding so as to avoid missing pages. This feature enables reliable performance for continuous scanning

The Epson WorkForce DS-530II can be fitted with a **Flatbed scanner dock FSD)** to pair with the **Epson Perfection V39**. This enables users to enjoy both high speed sheet-fed scanning and flatbed scanning for passports, booklets and fragile paper like damaged receipts with one driver.

Flatbed scanner dock option

In addition to being compatible with both **Windows and Mac** operating systems, the **Epson WorkForce DS-530II** is bundled with a range of software applications selected specifically to assist in exploiting the full potential of the scanner as the hub of a highly productive and versatile document management solution. The applications include **Epson Scan 2, Epson Event Manager, ISIS driver & Document Capture Pro**.

1. Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Colour Mode.
2. With Epson Document Capture software installed on the connected Windows PC or Mac®.
