LED Indicators

The LED indicators on the doorbell give you an idea of the current device status. Here is a list of light indicators and the corresponding status it refers to.

Light indicator	Status
Blue light flashes rapidly (once every 0.2s)	Wi-Fi signal searching
Blue and red light flash alternatively	Wi-Fi configuration mode
Blue light flashes slowly (once every second)	Doorbell ringing

Getting to Know Your Wireless Chime

Overview

Getting Started

Operating Requirement

This video doorbell is powered on by 3 AA batteries. When the ring button is pressed, a standard "Ding Dong" ringtone will sound and notify users of the visitor.

To ensure good performance of the smart doorbell, please check the following things:

Do not install the smart doorbell on metal surfaces.

Mount your smart doorbell at a proper height. We recommend mounting it at 1.2~1.3m from the ground.

Verify that the Wi-Fi quality is suitable for the doorbell. We recommend closing the door to do a Wi-Fi speed test in the installation location to confirm that the upload speed is at least 2Mbps.

The app is available for iOS 8.0 or above with iPhone 5 or newer and Android 5.0 or above.

Downloading the App

smanos home 

Signing Up/In

If you have not registered an account with us, please press "Sign up" just below the "Sign in" icon on the app. Then follow the instructions to create your account.

* If you do not receive an account verification code in your email inbox during the registration process, please check your spam/junk folder to see if the notice has been blocked by your service provider.

Once you have an account with us, please select the "Sign in" icon and enter your email address and password to log in.

Adding Device

Tap "Smart Doorbell DB30" and start to set the device up.

Putting the Doorbell into WiFi Configuration Mode

There are two options to add the device to your smart phone.

Option 1: Smart Config

The faster and recommended way to get a device added. The device will be added to the same network that your smart phone is currently connected to.

Please note: only 2.4 GHz network is supported.

1. Press the ring button to wake the doorbell up, it will stay awake for 20 seconds.

Note: The device enters into sleep state after the indicator goes out.

2. Press the Configuration Button on the back for 3 times until two beeps are heard. Then input the Wi-Fi password of the network your smart phone is currently connected to. The doorbell will be ready to go after a minute or two.

Option 2: Through AP Mode

1. Press the ring button to wake the doorbell up, it will stay awake for 20 seconds.

Note: The device enters into sleep state after the indicator goes out.

2. Press and hold the Configuration Button on the back for 3 seconds until the doorbell beeps once. The indicators will flash red and blue alternately, indicating that the doorbell has been switched to the Wi-Fi configuration mode.

3. Connecting the Doorbell to Your Smart Phone

NOTE: Android users may need to disable cellular (mobile) data before proceeding to this step. This setting is normally found in your smart phone settings under Data Usage, or Mobile Networks.

If you're unable to find the setting location, we suggest searching on Google with the following syntax: Disable (Phone Model) cellular data.

Go to your smart phone Wi-Fi settings, and select "Smart Doorbell" to connect to the doorbell. Your smart phone is now the control center of your doorbell.

4. Entering Wi-Fi Details for the Doorbell

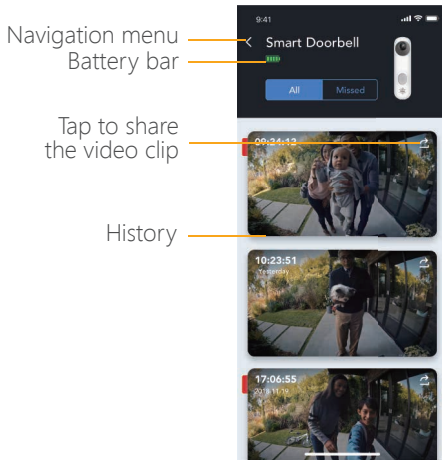

Pick your home Wi-Fi network from the drop-down box listed on the app. Then enter the Wi-Fi network password. The doorbell will connect to the selected Wi-Fi network. This binding process should take about three minutes.

App Operation

Main Page

Checking device status after setting up

Battery bar

Wake up the doorbell to check the real-time battery status (when doorbell is in dormant state, battery bar is not visible in this interface)

Share

Click the selected video to load, after loading, click the share icon in the upper right corner to share the video clip.

History

View the visiting history if smanos cloud is enabled

Doorbell Settings

Step 1: Press the ring button to wake the doorbell up. When the settings button turns blue in the answering call page, tap on it to change the settings.

Note: The doorbell is only woken up from its sleep state when someone presses the ring button. If there are no further operation within 20 seconds, it will go back to sleep state again.

Step 2: In the settings page, you can change the device name, date format, notifications and network configuration.

Chime Settings

This kit includes one chime pre-paired to the doorbell. It will ring when you press the ring button of the doorbell. To change the settings on the app:

Step1. Press the ring button to wake up the doorbell, wait till the settings button turns into blue in the answering call page, and tap on it to change the settings.

Note: The doorbell is only woken up from its sleep state when someone presses the ring button. If there are no further operation within 20 seconds, it will go back to sleep state again.

Step 2. In the chime settings page, you can adjust the ringtone, volume, light settings or the Do Not Disturb mode.

Do Not Disturb mode: all linked chimes will not ring during a user defined period.

Add New Chime

To pair the wireless chime to your doorbell, go to [Chime Settings] and select [Add New Chime]. Then follow the instructions on the app.

Note: You can press and hold the chime button for 5 seconds to disconnect the chime to the doorbell. The chime light will flash twice when disconnected.

About Device

Step 1. Press the ring button to wake the doorbell up. When the settings button turns blue in the answering call page, tap on it to change the settings.

Step 2. In the About section, you can find information such as firmware version, device time, firmware updates and the device reset option.

Device Time

Tap on device time to synchronize the device time to your smart phone.

Firmware Update

If there is a new firmware update available, tap on it to update the firmware.

There will be notification prompt on the app if there is a firmware update available.

Note: Press the ring button to wake the doorbell up first.

Reset Device

This option resets the device to default settings.

1. Press the ring button to wake the doorbell up.

Note: The doorbell is only woken up from its sleep state when someone presses the ring button. If there are no further operation within 20 seconds, it will go back to sleep state again.

2. Press and hold the configuration button on the rear side of the doorbell for 10 seconds, you will hear one short beep after 3 seconds and then 2 beeps after another 7 seconds.

Answering Your Door

When someone in front of your door rings the doorbell, it will show on your app:

After loading successfully, it will show an image snapshot of the situation. Tap [📞] to speak to the ringer directly or tap [🚫] to decline.

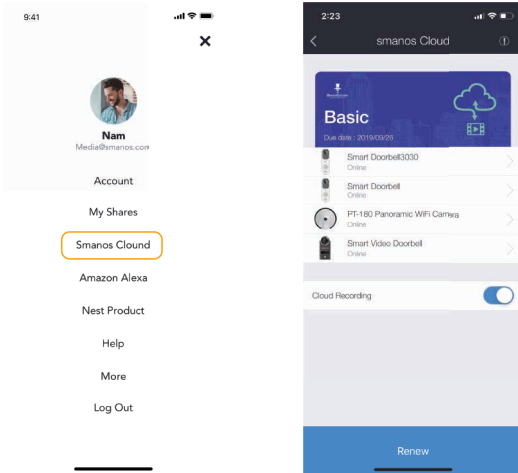

Hold the [🗣️] button to talk with your visitor.

You can also take screenshots during the conversation. It will be saved to your phone's album.

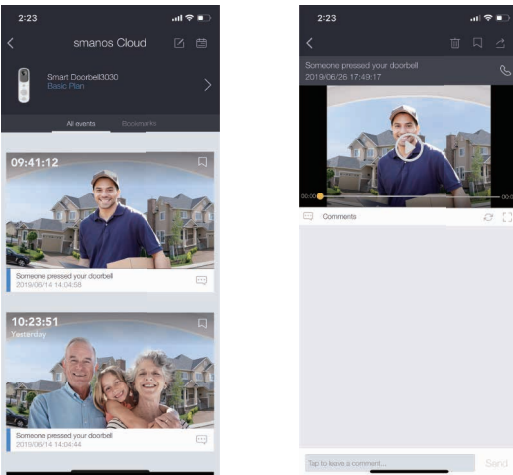

History

If you have activated a cloud service, answered and missed video logs can be reviewed from this page directly (otherwise, the history logs will be shown in gray color). The corresponding 15-second videos can be accessed on the smanos cloud page.

You can also tap user account picture on the main page to access smanos cloud page.

Tap [📅] to pick a specific day to filter videos.

Tap the edit icon [✎] and then tap [🗑️] to delete the selected video.

Tap the selected video clip, and then tap [➦] to share it. (Free plan doesn't support sharing function).

Tap the selected video clip, and then tap [📖] to bookmark it. (Free plan doesn't support bookmark function).

Account Management

Editing Account

Tap user account picture on the main page to access account management.

Tap the picture to add or replace your profile image by taking a picture or choosing a picture from your phone's album.

To change your account name, tap the [] button to enter a new name.

A password change can also be done on this page.

Payment Method(For Android App Only)

You can access payment methods available for smanos cloud plans here.

My Orders

You can find all the purchased or unprocessed smanos cloud orders in this section.

For iPhone users, you can find the purchase record or edit your Subscription by tapping your profile icon in the App Store app, then find "Manage Subscriptions" on the same screen.

Delete Account

You can delete your account here. All your account information, shared settings, subscription plans will be permanently removed.

My Shares

Sharing Device(s) with Family or Friends

In the “My Shares” page, tap the [+] button to share access to your device(s) with other registered accounts.

Enter the email address and a nickname for the account you want to share with. Then select the device(s) and access setting(s).

Access Setting

There are two types of granted access: administrator and user.

Admin (Full Access)

Admins (Full Access) will be able to do everything the owner can except for re-sharing the device to others.

Important: For your safety, only grant admin access to the people you trust.

User (Read Only)

Users (Read Only) will only be able to edit the name of the device(s) and receive alerts. Re-sharing the device(s) and changing the settings are not permitted.

(1) By Day of the Week

Select the day(s) and schedule you want the device(s) to be accessible to the account you share with.

(2) By Date

The family and/or friend(s) you share with would have access to your device(s) during the selected time period.

Stop Sharing

To remove access to the device you have shared, tap stop sharing. Then tap “√” on the top right to save.

EN INFORMATION FOR THE USERS At the end of its life, the device has to be separated from the other waste. Consign the device and all its components together to a center of electrical and electrotechnical waste recycling center, designated by your local authorities.

DE INFORMATIONEN FÜR DIE BENUTZER Das Gerät am Ende seiner Lebensdauer von den anderen Abfällen getrennt werden muss. Der Benutzer sollte das Gerät und alle seine Komponenten zusammen mit einem geeigneten Zentrum des elektronischen und elektrotechnischen Abfallrecyclingzentrums, das von ihren örtlichen Behörden benannt ist, verteilen.

FR INFORMATIONS POUR LES UTILIZATEURS Qu'en fin de vie, l'appareil doit être séparé des autres déchets. Consigner l'appareil et tous ses composants dans un centre approprié de recyclage des déchets électroniques et électrotechniques, désigné par vos autorités locales.

NL INFORMATIE VOOR DE GEBRUIKERS Aan het einde van zijn levensduur moet het apparaat van het andere afval worden gescheiden. Verzend het apparaat en alle componenten samen naar een centrum voor elektronische en elektrotechnische afvalrecycling, aangewezen door uw lokale autoriteiten.

ES INFORMACION DEL USUARIO Al final de su vida útil, el dispositivo debe separarse de los otros residuos. El usuario debe remitir el dispositivo y todos sus componentes a un centro adecuado de centro de reciclaje electro técnico, designado por las autoridades locales.

IT INFORMAZIONE AGLI UTENTI Il simbolo del cassonetto barrato riportato sull'apparecchiatura indica che il prodotto alla fine della propria vita utile deve essere raccolto separatamente dagli altri rifiuti. L'utente dovrà, pertanto, conferire l'apparecchiatura integra dei componenti essenziali giunta a fine vita agli idonei centri di raccolta differenziata dei rifiuti elettrici ed elettronici, oppure riconsegnarla al rivenditore al momento dell'acquisto di nuova apparecchiatura di tipo equivalente. Lo smaltimento abusivo del prodotto da parte dell'utente comporta l'applicazione delle sanzioni amministrative di cui al Decreto Legislativo N. 49 del 14 Marzo 2014.

DK INFORMATION TIL BRUGEREN I slutningen af sit liv skal enheden adskilles fra det andet affald. Forsend enheden og alle dens komponenter sammen til et center for elektronisk og elektroteknisk affalds genbrugscenter, udpeget af dine lokale myndigheder.

SE INFORMATION FÖR ANVÄNDAREN Vid slutet av sitt liv måste enheten separeras från det andra avfallet. Överför enheten och alla dess komponenter till ett centrum för elektroniskt och elektrotekniskt återvinningscenter, utsett av lokala myndigheter.

EN 2006/66/EC and its amendment 2013/56/EU (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: www.recyclethis.info.

DE 2006/66/EG und deren Änderung 2013/56/EU (Batterierichtlinie): Dieses Produkt enthält eine Batterie, die in der Europäischen Union nicht als unsortierter Hausmüll entsorgt werden kann. In der Produktdokumentation finden Sie spezifische Informationen zur Batterie. Die Batterie ist mit diesem Symbol gekennzeichnet, das Beschriftungen zur Kennzeichnung von Cadmium (Cd), Blei (Pb) oder Quecksilber (Hg) beinhalten kann. Für ein ordnungsgemäßes Recycling geben Sie die Batterie an Ihren Lieferanten oder an eine dafür vorgesehene Sammelstelle zurück. Weitere Informationen finden Sie unter: www.recyclethis.info.

FR 2006/66/CE et son amendement 2013/56/UE (directive sur les piles) : Ce produit contient une pile qui ne peut pas être éliminée comme déchet municipal non trié dans l'Union européenne. Reportez-vous à la documentation du produit pour obtenir des informations spécifiques sur la batterie. La batterie porte ce symbole, qui peut inclure des lettres indiquant le cadmium (Cd), le plomb (Pb) ou le mercure (Hg). Pour un recyclage approprié, retournez la batterie à votre fournisseur ou à un point de collecte désigné. Pour plus d'informations, voir : www.recyclethis.info.

NL 2006/66/EG en de wijziging daarvan in 2013/56/EU (batterijrichtlijn): Dit product bevat een batterij die in de Europese Unie niet als ongesorteerd stedelijk afval kan worden afgevoerd. Zie de productdocumentatie voor specifieke informatie over de batterij. De batterij is gemarkeerd met dit symbool, dat kan bestaan uit letters ter aanduiding van cadmium (Cd), lood (Pb) of kwik (Hg). Voor een correcte recycling kunt u de batterij naar uw leverancier of naar een aangewezen inzamelpunt brengen. Voor meer informatie zie: www.recyclethis.info.

ES 2006/66/CE y su modificación 2013/56/UE (Directiva sobre pilas): Este producto contiene una batería que no puede eliminarse como residuo municipal no clasificado en la Unión Europea. Consulte la documentación del producto para obtener información específica sobre la batería. La batería está marcada con este símbolo, que puede incluir letras para indicar cadmio (Cd), plomo (Pb) o mercurio (Hg). Para un reciclaje adecuado, devuelva la batería a su proveedor o a un punto de recogida designado. Para más información, véase: www.recyclethis.info.

IT 2006/66/CE e relativo emendamento 2013/56/UE (direttiva sulle batterie): Questo prodotto contiene una batteria che non può essere smaltita come rifiuto municipale non differenziato nell'Unione Europea. Per informazioni specifiche sulla batteria, consultare la documentazione del prodotto. La batteria è contrassegnata con questo simbolo, che può includere lettere che indicano cadmio (Cd), piombo (Pb) o mercurio (Hg). Per un corretto riciclaggio, restituire la batteria al fornitore o a un punto di raccolta designato. Per ulteriori informazioni: www.recyclethis.info.

DK 2006/66 / EF og dets ændring 2013/56 / EU (batterirektiv): Dette produkt indeholder et batteri, der ikke kan bortskaffes som usorteret kommunalt affald i EU. Se produktdokumentationen for specifik batteridata. Batteriet er markeret med dette symbol, hvilket kan omfatte bogstaver for at indikere cadmium (Cd), bly (Pb) eller kviksølv (Hg). For korrekt genbrug, returner batteriet til din leverandør eller til et udpeget indsamlingssted. For mere information se: www.recyclethis.info.

SE 2006/66 / EF og dets ændring 2013/56 / EU (batterirektiv): Dette produkt indeholder et batteri, der ikke kan bortskaffes som usorteret kommunalt affald i EU. Se produktdokumentationen for specifik batteridata. Batteriet er markeret med dette symbol, hvilket kan omfatte bogstaver for at indikere cadmium (Cd), bly (Pb) eller kviksølv (Hg). For korrekt genbrug, returner batteriet til din leverandør eller til et udpeget indsamlingssted. For mere information se: www.recyclethis.info.
